

# PUBLIC NOTICE

## Road Closure Between Stewart & Hyder: UPDATE

POSTED: Friday, November 19, 2021 (12:00pm)

**DriveBC indicates the road between Stewart & Hyder will be open for 3 hours today (Friday, November 19<sup>th</sup>):  
between 3:00pm and 6:00pm**

There will be single lane, alternating traffic permitted during this time, so there may short delays.

We hope that the 3 hours will allow Hyder residents, and boat owners enough time to conduct their business and return home.

All downed lines have been grounded out, and crews are working to move the lines so the public will not be affected.

Please note, there is/was a wire down across the handrails on the ramp down to the docks – hopefully it is removed before people access the docks, but we advise caution be taken.

DriveBC does not currently have additional openings posted, but we are hopeful that will be updated by 8:00pm this evening.

**Be advised that any posted openings may be affected by weather that is approaching. As such, it is extremely important that today's opening at 3:00pm to 6:00pm be taken advantage of!**

Future openings may be limited until things settle.
